

Better End of Lease Options

Managing and returning your equipment should be simple.

Take control of your leased assets. First American's convenient asset management tool, straightforward end of lease options, and simple returns make the end of lease hassle-free.

Clean Walk Away

Clear and honest contract terms enable you to return equipment at lease expiration with no further obligations. First American's end of lease options also give you the added flexibility to renew the lease for short-term periods, or buy the equipment.

Simple Returns

You will not be required to return equipment in its original packing materials. First American can provide asset tags at the beginning of your lease to increase the ease of identifying and returning your leased assets.

Nationwide Return Locations

With return locations located throughout the U.S. you will save money on return shipping costs.

Return + Logistics Services

Data Sanitization

+ Department of Defense-level data wipe

Recycling Services

+ Environmentally friendly disposal with detailed list of asset serial numbers

Logistics Services

+ Pack and ship services - expert packing and handling for delicate technology equipment

Asset Management Solutions

Customer Connect

Confidential online tool allows you to easily track your leases and equipment 24 x 7. Our Mobile App provides added accessibility from your iPhone, iPad, or Android-powered phone or tablet.

First American Value Recovery

Transform your unused assets into new productive equipment. First American will sell your unused technology equipment and apply 100% of the proceeds to your next First American lease.
